An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Montana on 06 December 2004.

The application has been amended as follows:

In the specification:

At paragraph [14], line 5, replace "Locus" with -Locust--.

In the claims:

In claim 4, line 3, replace "Locus" with -Locust--.

In claim 14, line 3, replace "Locus" with -Locust--.

In claim 15, line 1, replace "10" with -16--.

In claim 26, line 3, replace "Locus" with -Locust--.

In claim 32, line 3, replace "Locus" with -Locust--.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the improved properties and reduction of boron usage enabled by the use of the carboxymethylated hydrocolloid and CMC-containing fiber-based product. The terms "high" and "highly" in claims 21 and 24 are construed, consistent with the specification as sufficient in degree to complete mixing. The scope of the terms is not relied upon to establish patentability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany
